Education

Washington State University 2025

Bachelors A member of the Honors College, and a Regents Scholar.

Lynden High School 2022

Advanced Placement and “College in the High School” coursework in core subject areas, as well as Career and Technical Education and electives.

Hey there! I'm Jack Graddon, a Design Technologist with a passion for creating technology that is intuitive, accessible, and enjoyable. My studies in Digital Technology and Culture at Washington State University empower me to approach challenges with creativity and determination. For the past ten years, I have been dedicated to mastering both intuitive and eye-catching design accompanied with thoughtful full-stack development. My goal? To make technology easier for everyone, whether they're tech-savvy or just getting started.

Experience

Citizens for Lynden Schools 2025

Built an thoughtful, informative, and engaging website to draw positive attention to the Lynden School District bond for building and renovating their aging high school.

Website: futurereadylynden.com

AllDrafts 2024

Produced engaging video content for tutorials and advertisements to enhance user engagement.

Website: alldrafts.com

Learning and Performance Research Center 2022-Present

Updated the laboratory's website to conform with the Web Standards of Washington State University. This included the primary laboratory website and any websites under the laboratory's control.

Websites: labs.wsu.edu/lprc, warms.wsu.edu

No. 1 Automotive 2022-2023

Data entry for the Bellingham No. 1 Automotive body shop inputting paper invoices and other linking data into their electronic database CCC One.

IT Internship 2019-2022

One of two students selected to participate in the inaugural IT internship program. Responsibilities include resolving support tickets, computer repair and maintenance, and maintaining a Tech Support YouTube channel (Lynden Tech Tips).
